Projects

Recipe Manager App, Front-End Developer

- Worked with a team of my peers to create a CRUD-style web app that stores recipes.
- Practiced Agile development with daily standups, weekly sprints, and sprint reviews.
- Created design and page flow as well as custom recipe card components.

News Article Storage App, Solo Project

- Designed and implemented a web app to store noteworthy articles and blog posts.
- Implemented CRUD features to allow the user to update and delete posts using local storage.
- Added API support to see the current trending headlines and save these to the user's device.
